

Inspect, report and resolve any vehicle issues

Inspect365 is our next-gen vehicle safety app. It helps keep your vehicles maintained, your people safe, and your organisation compliant with laws and regulations.

The app's user-friendly design lets your staff easily inspect the condition of your vehicles and report the findings. And this helps you identify and resolve any issues – all starting from their smart device.

It can also integrate with SG Fleet vehicle maintenance systems. So when you present your vehicle for repairs, we are ready to manage, review, and authorise what is needed to get your vehicles moving again.

Inspect365 helps to streamline the entire process of inspecting, reporting and resolving vehicle issues. Let our experts show you how easy it is to get it up and running for your organisation.
