

# Fleetintelligence 2.0

## The next evolution in Novated Leasing has arrived!

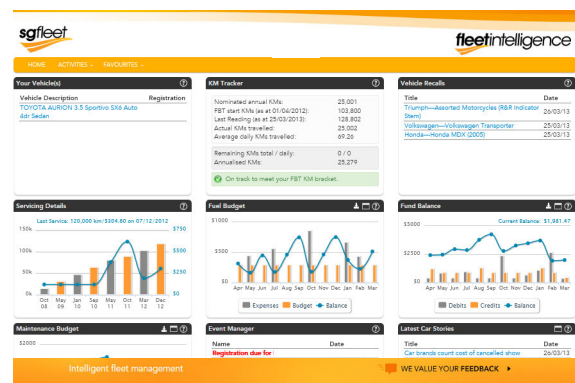

**sgfleet** has developed a brand new driver portal - Fleetintelligence 2.0. This provides a new platform for drivers to manage their **sgfleet** Novated Lease and view all package information in a new user friendly web portal.

What does Fleetintelligence 2.0 mean for Novated Drivers?

- ✓ Access to a comprehensive suite of graphs and charts which illustrate current and historical package balances
- ✓ The ability to submit real time km readings and immediately see how this affects the package
- ✓ Reimbursement requests can be submitted online - no more handwritten forms
- ✓ Fully downloadable transaction history to enable a more detailed analysis to be undertaken in the preferred spread sheet application
- ✓ Advanced communication capabilities via the 'Event Manager'
- ✓ The ability to submit end of FBT year odometer lodgement
- ✓ Access to personalised documentation and training materials

There is no additional cost and this tool is provided to assist drivers in efficiently managing their package and helping **sgfleet** to communicate in a more effective manner.

This new driver portal provides a significant enhancement to the user experience and delivers more services and greater visibility over information.

For more information on Novated Leases and Fleetintelligence 2.0, contact **sgfleet** on [novatedservice@sgfleet.com](mailto:novatedservice@sgfleet.com), 1300 138 235 or visit [www.sgfleet.com](http://www.sgfleet.com)
