

# Fleetintelligence

**sgfleet** has made it even easier to manage your fleet

**sgfleet** has enhanced the capabilities and features of Fleetintelligence.

Fleetintelligence is a dynamic platform for fleet managers to oversee and control all fleet assets and view information in a user friendly web portal.

#### What does Fleetintelligence provide?

- ✓ Access to a comprehensive suite of pre-configured dashboard graphs and charts which highlight key statistics
- ✓ Easy access to information, documentation and training materials which relate specifically to a company's fleet policy
- ✓ It assists fleet managers in efficiently managing fleet assets

There is no additional cost to use Fleetintelligence which is provided to assist users in efficiently managing leased vehicles and fleet assets.

The new Fleetintelligence provides a significant enhancement to the user experience and delivers more services and greater visibility on asset information.

**This development in Fleetintelligence will provide the best possible experience in Fleet Management**
